Volkslift Australia Pty. Ltd.

Company Overview:

Since its establishment in 2018, Volkslift Australia Pty. Ltd. has rapidly gained a reputation for excellence in the lift industry, building on a successful partnership with VOLKSLIFT China. With landmark installations in Melbourne, Victoria, and the Gold Coast, Queensland, we have demonstrated our capacity to meet diverse vertical transportation needs. Our state-of-the-art manufacturing facility in Shanghai specializes in custom elevator fitouts, particularly high-capacity goods and passenger lifts. Driven by a commitment to innovation and quality, our Director, Brendan Reichert, leverages over 30 years of expertise in the lift industry, including significant experience with JOHNS PERRY LIFTS, to lead our operations with precision and vision.

Mission Statement:

“To provide innovative and reliable lift solutions that enhance accessibility and safety for all.”

Core Competencies:

- **Electrical and Structural Design:** Adhering to the highest safety and performance standards recognized by international lift manufacturing societies.

Design & Engineering:

- **Tailored Solutions:** Creating bespoke lift solutions for both commercial and residential applications.
- **Safety First:** Emphasizing safety, efficiency, and user-friendliness in every project.

Manufacturing:

- **Quality Production:** Utilizing advanced technology to produce high-quality lift systems.
- **Sustainability Commitment:** Prioritizing sustainable practices and materials in our manufacturing processes.

Installation:

- **Expert Installation Services:** Delivering professional installations with minimal disruption to your operations.
- **Certified Technicians:** Employing experienced technicians to ensure safety and compliance.

Maintenance & Support:

- **Comprehensive Programs:** Offering thorough maintenance programs to guarantee longevity and peak performance.
- **24/7 Support:** Providing around-the-clock support for urgent maintenance needs.

Key Projects:

1. **Kennards Hawthorn:** Installation of 2 large-capacity goods passenger lifts.
2. **Hope Island, Queensland:** Custom high-end home lift in a \$9M four-floor mansion.
3. **McDonald's CBD:** Lift refurb and fitout featuring bespoke smart controls for a goods-only lift.

Certifications & Affiliations:

- **Qualifications:** REC, A-Grade Electrician, Advanced Rigger, Associate Engineer (Adv. Dip Electronic Engineering).
- **Memberships:** Proud member of the Australian Elevator Association and the Lift Engineering Society of Australia.
- **ISO Certification:** ISO 9001 certified products; ongoing efforts to achieve local ISO 9001 certification.
- **Affiliations:** AEA, LESA, NECA, VECCI, HIA.

Why Choose Us?

- **Established Expertise:** With over 30 years in the industry, our experienced team is well-equipped to handle your lift needs.
- **Customer-Centric Approach:** We prioritize customer satisfaction and are committed to continuous improvement.
- **Proven Track Record:** Our portfolio showcases numerous successful projects and satisfied clients.

Testimonials:

“Volkslift Australia helped us achieve seamless vertical mobility in our Goods lift project with outstanding professionalism.” – **Candita, Area Manager, McDonald's CBD 500kg Goods only MRL QV McDonalds**

“Exceptional workmanship completed lift on time and without any complication. Skilled lift tradesmen with plenty of knowledge to manage custom works.”- **Ming, Director LHG Build 675kg Hydraulic Passenger Lift**

“Quality work and professional tradesmen that completed our lift to detail”- **Con DC Group 400kg Hydraulic home lift**

“Hardworking and professional lift people who completed our lift in around a difficult site and timeframes” **Jimmy Ireland Brown Constructions 1000kg MRL Mentone LSC**

“Dedicated Lift installation trades completed our lift with many Niche requirements to fine details a job well done” – **John Project Manager ADMA Group 630kg Hydraulic passenger lift Werribee sleep clinic**

“Brilliant modern design revamp of an outdated lift system to improve both its mechanical functionality and user experience. Emphasizing user-centric design, it highlights the exceptional expertise of Volkslift Australia in vertical transport engineering solutions. Addressing structural integrity was critical for safety, and the use of advanced materials and smart engineering techniques and enhancing the durability of the lift while minimizing installation disruptions.” **Yihan Project Manager U9 Group 1250kg Electric passenger lift North Melbourne hotel/entertainment venue.**

“Upgrading the goods lift system at Thermo Fisher has significantly improved safety and operational efficiency. Automating the manual doors has not only streamlined the movement of heavy lab equipment but also reduce the risk of accidents and injuries related to manual handling.

Integrating the advanced controls has led to better monitoring and management of the lift system, allowing for a predictive safe operation and minimizing workplace risk. Furthermore, this collaboration with Volkslift showcases a commitment to innovation and excellence in maintaining a safe laboratory environment for Thermo Fisher.” **Shelley Safety Manager Thermo Fisher 500kg Electric goods lift Thermo Fisher Scoresby.**
